**Model: OR-FI08**

**ENGLISH ENG**

Dear customers! Thank you for purchasing ORION products. Before operation, please read this instruction manual. Save it for future reference.

## **IMPORTANT SAFETY INSTRUCTIONS**

1. This appliance complies with the recognized rules of the technology and the pertinent safety regulations for electrical appliance.
2. The main cable of this appliance cannot be replaced. If the cord or the plug is damaged or defect, the appliance should be discarded.
3. The Voltage of the power source must be same as specified on the rating plate!
4. Connect the appliance only to AC current and to a socket with earthing contact. Do not pull the cable over sharp edges, clamp it into place or allow it to hang down! Keep the cable away from hot and damp areas!
5. Before using checks that the appliance functions properly! The appliance should not be used if:
  - The connecting cable is damaged
  - The appliance shows noticeable damage
  - The appliance has been dropped
6. Never wind the main cable around the appliance.
7. The main cable must not come into contact with hot appliance parts and should never run between the straightening plates!
8. Only insert the main cable plug to power supply when the appliance is switched off!
9. The appliance must not come into contact with flammable material. It must also not be used near flammable material because the straightener plates reach temperature of approx. 230°C!
10. Never cover the straightening plates with any object!
11. The appliance must never be switched on when the clamped together. Ensure that the appliance is open!
12. Children are not aware of the hazards of electrical appliances. Therefore, close supervision is necessary when children use the appliance!
13. Remove the plug from the power supply:
  - If the appliance does not function properly
  - Before cleaning
  - After every use
14. Do not pull on the main cable and do not carry the appliance by means of the cable!
15. Always disconnect the appliance from the power supply and allow the appliance to cool down before cleaning and maintenance, or if faults occur during operation!
16. Do not use the main cable to pull on the plug nor remove the plug from the socket with wet hands!
17. Never grasp the appliance by or near the straightening plates when the appliance is on. The straightening plates can cause burns. Avoid contact with the skin and eyes. Never transport the appliance when hot!
18. Never use the appliance with wet hands, in the bath or shower or over a filled washbasin. If the appliance falls into the water, remove the main cable plug immediately. When the appliance is used in a bathroom, unplug it after use.
19. After use, or if pausing for a significant length of time, unplug it and let the appliance cool down!
20. Protect the appliance away from moisture. Never put it into the dishwasher. Never immerse it in water!

## CHARACTERISTICS

- LCD display
- «+/-» buttons for temperature control from 155 °C - 230°C
- 25x120 mm ceramic coating plates
- Electronic temperature control
- PTC heating element
- Heating time: 30 sec
- 1 hour auto off protection
- On/Off button
- Lockable handle
- Hanging loop
- Swivel power cord 1,8m
- Nominal voltage: AC230V~50Hz
- Nominal power: 54W
- Nominal current: 0,5A
- Electric shock protection class (adapter): II
- Humidity protection degree: IPX2
- Product size: 300x30x28mm
- Gift box size: 350x55x90mm
- Net/Gross weight: 371.3g/460g
- Body color: black

## DETAILS

- A. B. Handles Power cord
- C. LCD display
- D. On/Off button and «+/-» buttons for temperature control
- F. Heating plates
